

## GLENDALE WATER & POWER FEED-IN TARIFF (FIT) PROGRAM FEES

<b>FEE</b>	<b>AMOUNT</b>	<b>DETAILS</b>
Application Fee	\$135.00 per Application submittal	Payable upon submission of a FIT Application and upon any resubmittal. Covers the cost of reviewing the Application submittal. Non-refundable unless the FIT Program is over-subscribed at the time the Application is submitted, in which case the Application Fee will be returned to the Applicant.
Reservation Deposit	\$20/kW of proposed Facility Capacity	Payable upon submission of a FIT Application to secure a FIT Queue reservation. Refundable if Applicant withdraws its participation and loses its position in the FIT Queue before signing the FIT Agreements, or if Applicant achieves Commercial Operation within 90 days of the scheduled Commercial Operation Date. Non-refundable if Applicant fails to achieve commercial operation within 90 days of scheduled Commercial Operation Date or if the FIT Agreements are terminated.
Interconnection Study Fee	\$1,000 per Application	Payable upon submission of a FIT Application. Covers the cost of engineering and technical review of the interconnection, including system impacts, if any. Refundable until the Interconnection Study commences.
GWP Design and Construction Costs for the Interconnection	Actual cost	Deposit of 10% of Estimated Cost is due with Applicant's submittal of signed PPA and Interconnection Agreement to City. Balance of Estimated Cost due upon GWP's submission to the Applicant of detailed interconnection designs and a Final Cost Estimate. If actual costs exceed estimate, Applicant must submit the difference. If costs are less than the estimate, the excess amount is refunded to Applicant. If the project is terminated, the Design and Construction Costs are refundable to Applicant unless and to the extent work has been undertaken.
