

## **Public Database of Affordable Units and Enforceability**

---

### **Description of Requirement for Database:**

In accordance with the provisions of AB 987, a list is attached showing existing new and substantially rehabilitated housing units that were either (a) developed or otherwise assisted with Low and Moderate Income Housing Funds, or (b) otherwise counted toward the Authority's inclusionary and replacement housing obligations imposed by Section 33413 of the Community Redevelopment Law.

Also in accordance with the law, this database does not include any property used to confidentially house victims of domestic violence.

Please be aware that this is only a summary of affordable housing units assisted with Low and Moderate Income Housing Funds and is not a listing of currently available housing.

### **Annual Update Required:**

This database is to be updated annually. The January 2012 annual update is the most recent version.

### **Additional Information:**

Comparable information on all other existing new and substantially rehabilitated housing units assisted by the Housing Authority of the City of Glendale, but not included in AB 987 requirements, has also been included in the database list as a service to the public. These units are listed in the database sections noted as "For Informational Purposes Only."

Housing Type is included in the database list, although it is not required by AB 987.

NA is an abbreviation of "Does Not Apply."
