Construction Activities Update—Street Paving Improvements Canada Boulevard Infrastructure Improvements and Adjacent Streets Project

The City's contractor, Sully-Miller Contracting Company, is currently finalizing preparations for street paving along Canada Boulevard, between the northerly and southerly merge with Verdugo Rd.

The following is a timeline for that work:

- **October 20, 2014** – start of pavement grinding on Canada, a 4-5 day process, lane reductions with minor delays to cross traffic
- **October 27, 2014** – base paving via Cold In-Place Pavement Recycling on Canada, a 4-5 day process, lane reductions with significant delays up to an hour for cross traffic
- **November 11, 2014** – surface paving on Canada, a 4-5 day process, start date of surface paving is tentative and depends on curing time of base paving
- **November 5 & 10, 2014** – slurry seal on side streets between Canada and the Verdugo Wash, streets will be closed for the day, please turn off sprinklers
- **November, December, January** – work will continue on Glorietta and Ramona. The contractor will clean up the work site during the holiday weeks to be presentable.

During this period we request the following:

- Use alternate streets when possible. Detour signs will be installed
- Leave early if possible – before 7:00AM from October 27-31
- Allow additional travel time for delays, which may be as long as an hour
- Turn off sprinklers from November 1 to November 11

You will receive a 3-day door hanger notice from the contractor with the specific dates, locations, and restrictions, when the work is adjacent to your house.

You may contact Kevin Carter, Project Manager at (818) 937-8256 or via email kcarter@glendaleca.gov for more information. Additional information and a map can be found on the project webpage: <http://bitly.com/1wz9mFB>

Thank you for your patience and cooperation as we work to improve Glendale's public infrastructure.

Respectfully,

Roubik Golanian, P.E.
Director of Public Works
