**RE: 714 SOUTH BRAND BOULEVARD
CONDITIONAL USE PERMIT NO. PCUP 1324505**

Dear Ms. Guevara:

On April 30, 2014 the Planning Hearing Officer conducted and closed a public hearing, pursuant to the provisions of the Glendale Municipal Code, Title 30, Chapter 30.42, on your application for a conditional use permit to allow the continued sales, service, and on-site consumption of beer and wine (Type 41) at an existing full service restaurant in the "CA" – Commercial Auto zone, located at **714 South Brand Boulevard**, described as Lots 7 and 8, Tract No. 2460 in the City of Glendale, County of Los Angeles.

APPLICANT'S PROPOSAL

Conditional Use Permit

- 1) To allow the sales, service and consumption of beer and wine, Type 41, at an existing full service restaurant.

CODE REQUIRES

Conditional Use Permit

- 1) Approval of a Conditional Use Permit is required for sales, service, and consumption of alcoholic beverages for full-service restaurants in the "CA" – Commercial Auto zone.

ENVIRONMENTAL RECOMMENDATION: The project is exempt from CEQA review as a Class 1 "Existing Facilities" exemption, pursuant to State CEQA Guidelines Section 15301.

REQUIRED/MANDATED FINDINGS

After thorough consideration of the statements contained in the application, the plans submitted therewith, the report by the Community Development Department staff thereon, and the statements made at the public hearing with respect to this application, the Planning Hearing Officer has **GRANTED WITH CONDITIONS** your application based on the following:

A. The proposed use will be consistent with the various elements and objectives of the general plan.

The Land Use Element classifies the subject site as Commercial - Community Services. This land use classification recommends flexibility in the range and type of services and facilities that are provided to serve the community's shopping functions. The restaurant use is consistent with this land use classification and the continued serving of alcoholic beverages would be appropriate in conjunction with the restaurant use. Also, the Circulation Element identifies Brand Boulevard as a major arterial, which is appropriate to support the traffic generated by the variety of commercial retail and commercial service uses that exist in the area.

B. That the use and its associated structures and facilities will not be detrimental to the public health or safety, the general welfare, or the environment.

It is not anticipated that the continued sales and serving of beer and wine at this restaurant will have a detrimental effect on the community. The serving of alcoholic beverages has been established since 1970 by conditional use permit and has continued since. The present operation is proposed to continue without expansion. The Police Department has reviewed the application and has not stated any opposition to the continuation of the sales and serving of beer and wine.

C. The use and facilities will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property.

The restaurant has been serving alcoholic beverages since the early 1970s based on the conditional use permit history and the proposal is to continue the serving and consumption of alcoholic beverages at the existing restaurant. The proposal does not involve an expansion or other modifications which may intensify the use and conflict with the surrounding uses and properties. The use is located in a heavily-urbanized area and contributes to the mix of commercial retail and commercial service uses as well as to the multi-family residential uses to the east of the site and in the nearby downtown specific plan area. Off-street parking is available on the site and has been adequate for the use. In addition, the Planning Division has not received any formal complaints from the nearby commercial and residential properties. The conditions attached herein are expected to be sufficient to assure that the operation of the facility will continue without negative impacts on the area.

D. Adequate public and private facilities such as utilities, landscaping, parking spaces and traffic circulation measures are provided for the proposed use.

The applicant is proposing to operate the restaurant in the existing manner and the subject application is to continue the serving and consumption of alcoholic beverages. No intensification of the use is proposed and the existing five on-site parking spaces should remain adequate. Therefore, the need for increased public or private facilities is not anticipated.

Furthermore, this request requires that additional findings of fact be made, as follows:

For applications involving the sale, serving or consumption of alcoholic beverages, the following criteria shall be considered in making the findings in subsection A. through D. above:

- 1. That such use will not tend to intensify or otherwise contribute to the adverse impacts on the surrounding area caused by over concentration.**

The restaurant is located in Census Tract No. 3025.04 with a maximum recommendation of three on-site sale establishments. The existing restaurant is the only establishment serving alcoholic beverages in this census tract and the subject application to continue the serving and consumption of alcoholic beverages will not increase the concentration of on-site uses in the census tract.

- 2. That such use will not tend to encourage or intensify crime within the district.**

According to the Police Department, Part I crime statistics for Census Tract No. 3025.04, where the restaurant is located, indicate 31 crimes in 2012, which correspond to a crime rate 48% below the city's average crime rate. The Police Department also reported one call for police service in 2013 related to a parking complaint, unrelated to the serving and consumption of alcoholic beverages. Therefore, the proposal to continue the serving and consumption of alcoholic beverages at the existing restaurant is not expected to encourage or intensify crime within this census tract.

- 3. That the existing or proposed use does not or will not adversely impact any church, public or private school or college, day care facility, public park, library, hospital or residential use within the surrounding area.**

The serving and consumption of alcoholic beverages at the restaurant has been conducted since at least the early 1970s and has not been detrimental to the

nearby uses, which include multi-family residential uses to the east and to the west across Brand Boulevard. The proposal is to continue the serving and consumption of alcoholic beverages at the existing restaurant and does not involve an expansion or modification of the use. Accordingly, adverse impacts on nearby public and private facilities and residential uses are not expected to occur.

4. **That adequate parking and loading facilities are or will be provided for the existing or proposed use or other reasonable alternatives satisfy the transportation and parking needs of the existing or proposed use.**

Five on-site parking spaces have provided parking for the restaurant and no negative comments have been provided by the City's Engineering Division, the Neighborhood Services Division or the Police Department regarding parking or traffic. Accordingly, the existing facilities appear to be adequate to accommodate the continued operation of the restaurant with the serving and consumption of alcoholic beverages as proposed.

5. **That, notwithstanding consideration of the criteria in subsections 1 through 4 above, the continued sales, service and on-site consumption of beer, wine and distilled spirits does serve a public convenience for the area. Compatibility of land uses is important to fostering a productive and thriving community.**

The complementary service of beer and wine at a full-service restaurant will serve a public convenience because it serves local residents and businesses with a unique menu. Conditions placed on the approval of the project will ensure that it will not adversely impact nearby businesses and residential uses.

SUMMARY OF PLANNING HEARING OFFICER'S DECISION

The Planning Hearing Officer was able to make all four required findings in favor of the application and was able to justify approval of the case based on the criteria required for alcohol-related cases in Sub-Section 30.42.030(F), Glendale Municipal Code. The subject full service restaurant has existed in this location for 44 years, since 1970. Offering alcoholic beverages will not require any new city services, will not harm public safety and welfare, and is not in conflict with existing or anticipated surrounding land uses. Traffic circulation measures are not anticipated to be impacted as a result of allowing alcoholic beverages at the existing golf course clubhouse. The conditions attached to the approval will control the use in a manner necessary to allow the use to properly fit into the specific location.
