**RE: 901 WEST GLENOAKS BLVD.
CONDITIONAL USE PERMIT NO. PCUP 1312886
(Ara's Tacos / Zankou Chicken)**

Dear Mr. Iskanderian:

On September 11, 2013, the Planning Hearing Officer conducted and closed a public hearing, pursuant to the provisions of the Glendale Municipal Code, Title 30, Chapter 30.42, on your application for a Conditional Use Permit to allow the on-site sales, service, and consumption of beer and wine (Type 41) at the existing fast food restaurants, located at **901 West Glenoaks Boulevard**, in the "C2" – Community Commercial Zone, described as Portion of Lot 9 and all of Lots 10, and 11, Tract No. 8419.

APPLICANT'S PROPOSAL

- (1) A Conditional Use Permit to allow the on-site sales, service and consumption of beer and wine at the existing fast food restaurants.

CODE REQUIRES

- (1) On-site sale, service and consumption of beer and wine require a Conditional Use Permit in the "C2" Zone.

ENVIRONMENTAL RECOMMENDATION: The project is exempt from CEQA review as a Class 1 "Existing Facilities" exemption pursuant to State CEQA Guidelines Section 15301.

REQUIRED/MANDATED FINDINGS

After thorough consideration of the statements contained in the application, the plans submitted therewith, the report by the Community Development Department staff thereon, and the statements made at the public hearing with respect to this application, the Planning Hearing Officer has **GRANTED WITH CONDITIONS** your application based on the following:

- A. That the proposed use will be consistent with the various elements and objectives of the general plan.**

The applicant's request for the on-site sales, service, and consumption of beer and wine at the existing fast food restaurants will be consistent with the elements and objectives of the General Plan. The Land Use Element seeks to improve the livability of the total community

for all Glendale residents as expressed in the living, working, and shopping areas. The service of alcoholic beverages at this location is appropriate because it is in an area of the city zoned for commercial uses. The Circulation Element of the General Plan identifies West Glenoaks Boulevard as a fully improved street and is classified as a Major Arterial street that serves many residential neighborhoods in the area as well as the surrounding community.

A fast-food restaurant use is permitted in the C2 (Community Commercial) zone and is consistent with the Community Services land use designation of the General Plan. The on-site sales, service and consumption of alcoholic beverages requires the approval of a Conditional Use Permit in the C2 commercial district. The applicant's request for on-site sales, service and consumption of beer and wine with meals is incidental to the primary operation and will serve a public necessity or public convenience purpose for the area.

The Land Use Element is the most directly related to the approval of this use. All other elements of the General Plan, including the Open Space, Recreation, Housing and Noise Elements, will not be impacted as a result of the applicant's proposal.

B. That the use and its associated structures and facilities will not be detrimental to the public health or safety, the general welfare, or the environment.

The two existing fast-food restaurants have operated on the subject site within the existing building utilizing separate kitchen facilities, and a shared dining area since 2008. The addition of beer and wine for on-site sales, service and consumption is not anticipated to be detrimental to the public health or safety, the general welfare, or the environment, as conditioned. Both restaurants will continue to operate in the same manner and the on-site sales, service and consumption of beer and wine will be complementary to the primary use. No new construction is proposed in conjunction with the Conditional Use Permit (CUP) application. The applicant's request for on-site consumption of beer and wine with meals is complementary to the site's primary use as a fast food restaurant and it is not anticipated to create any negative traffic-related impacts on area streets or other businesses over and above the existing conditions.

"Zankou Chicken" and "Ara's Tacos" are located in Census Tract 3012.06. The suggested limit for this census tract is five for on-sale establishments. There are currently two active on-sale licenses in this census tract. The request by the applicant, if approved, would be the third on-sale license for this census tract. According to the City's Part 1 crime statistics, there were 41 crimes reported in this census tract in 2012, which is 32% below the city wide average of 60. Within the last calendar year there were five calls for police service at this location; three of the calls for service were for the previous business, Sidewalk Café. Suggested conditions made by the Police Department have been included in the draft conditions of approval to ensure that any potential negative impacts will be appropriately mitigated. All five calls for police service were for disturbing the peace but no report was ever taken.

No public facilities are located within the immediate area. The closest public facilities are: Pelanconi Park at 1000 Grandview Avenue (0.6 miles to the west), First German United Methodist Church at 556 West Glenoaks Boulevard (0.5 miles to the east), Fremont Park at 600 Hahn Avenue (0.6 miles to the east), Mark Keppel Visual and Performing Arts Magnet

School at 730 Glenwood Road (0.6 miles to the north). Eleanor J. Toll Middle School at 700 Glenwood Road (0.6 miles to the north), Herbert Hoover High School at 651 Glenwood Road (0.6 miles to the north), and Saint Peter Armenian Church at 632 West Stocker Street (0.7 miles to the north). While these facilities are within the same vicinity, they are located outside of the immediate neighborhood. The applicant's request for this location does not appear to be a detriment to the safety and public welfare of the neighborhood, since the service of beer and wine is generally viewed as a common extension of a restaurant use.

C. That the use and facilities will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property.

The applicant's request for the service of beer and wine with meals at existing fast-food restaurants is not anticipated to adversely affect or conflict with adjacent uses or impede the normal development of surrounding properties. All four corners of the Highland Avenue and West Glenoaks Boulevard intersection are zoned C2 and feature low-scale commercial buildings and uses. To the north of the subject site properties are zoned R1 (Low Density Residential) and are separated from the site by a 15 foot alley and an eight foot high block wall. The ancillary on-site sales, service and consumption of beer and wine with meals in a restaurant setting is a typical request and is not generally known to negatively impact nearby businesses or residents. The consumption of beer and wine will be secondary to the primary use of food service. While serving beer and wine is considered an expansion of service, it would not affect or conflict with adjacent uses or impede the normal development of surrounding properties. The land use designation of the existing establishments, "fast-food restaurant", will remain unchanged.

D. That adequate public and private facilities such as utilities, landscaping, parking spaces and traffic circulation measures are or will be provided for the proposed use.

Adequate public and private facilities such as utilities, landscaping, parking spaces and traffic circulation measures are provided for the use and are existing. Associated utilities exist within the public rights-of-way and are adequate to continue service to the building. No changes are proposed to the parking for the use; there are currently 21 parking spaces on-site to the west and rear of the existing building. The parking demand is not anticipated to intensify with the sale of beer and wine. The applicant's CUP request for beer and wine sales will not require any new city services, nor will it require any changes to landscaping, parking or traffic circulation.

That all the criteria set forth in Section 30.42.030 (F) to be considered in making the findings in subsection a. through d. above have all been met and thoroughly considered:

- 1) That where an existing or proposed on-site use is located in a census tract with more than the recommended maximum concentration of on-site uses or that where an existing or proposed off-site use is located in a census tract with more than the recommended maximum concentration of off-site uses, both as recommended by the California Department of Alcoholic Beverage Control, such use does not or will not tend to intensify or otherwise contribute to the adverse impacts on the surrounding area caused by such over concentration, based on the comments submitted by the City of Glendale Police Department. The sale of beer and wine incidental to food service at "Zankou Chicken" and "Ara's Tacos" does not, or will not, tend to encourage or intensify crime within this

reporting district. According to the Glendale Police Department, the applicant has a pending Type 41 liquor license (On-Sale Beer and Wine – Eating Place). Census Tract 3012.06 allows for five on-sale establishments and there are currently two active on-sale licenses in this tract. If approved, the applicant's request would be the third on-sale license for this census tract.

- 2) That where the existing or proposed use is located in a crime reporting district with a crime rate which exceeds 20 percent of the city average for Part 1 crimes, as reported by the Glendale Police Department, such use does not or will not tend to encourage or intensify crime within the district because conditions have been included in the approval of this application to ensure that any potential negative impacts will be appropriately mitigated. According to the Glendale Police Department, the subject site is not located in a crime reporting district with a crime rate that exceeds 20 percent of the city average for Part 1 crime. Based on the City's Part 1 crime statistics for 3012.06 in 2012, there were 41 crimes reported, which is 32% below the city wide average of 60. Within the last calendar year, there were five calls for police service at this location; three of the calls for service were when the location was doing business as Sidewalk Café. No evidence has been presented which would indicate that existing fast-food restaurants with the on-site sales, service and consumption of beer and wine would encourage or intensify crime within the district.
- 3) That the existing or proposed use does not or will not adversely impact any other uses within the surrounding area (church, public or private school or college, day care facility, public park, library, hospital or residential use). As described in finding C above, there are no public facilities located within the immediate area of the subject site. There are a few public institutions, such as schools, churches, and parks located in the general vicinity of the restaurants, however, they are not in the immediate neighborhood and are not anticipated to be in conflict with the restaurant's request to serve beer and wine at the existing fast-food restaurants.
- 4) That adequate parking and loading facilities are or will be provided for the existing or proposed use or other reasonable alternatives satisfy the transportation and parking needs of the existing or proposed use. The applicant is proposing to operate the existing fast-food restaurants in the existing manner; therefore, it is not anticipated to increase the need for public or private facilities. The ancillary service of beer and wine at the existing establishments is not anticipated to intensify traffic circulation or parking demand. West Glenoaks Boulevard is identified as a Major Arterial, which adequately handles the existing traffic circulation around the site. The proposed use satisfies its transportation or parking needs as described above because adequate access, parking, and delivery spaces are available to serve this use.
- 5) That, notwithstanding consideration of the criteria in subsections 1 through 4 above, beer and wine sales, service and on-site consumption does serve a public convenience for the area. The applicant's request to add the on-site sales, service, and consumption of beer and wine to their primary restaurant use does serve a public convenience because it serves local residents, businesses, and the surrounding community. Conditions placed on the approval of the project will ensure that it will not adversely impact nearby businesses and residential uses.

SUMMARY OF PLANNING HEARING OFFICER'S DECISION

The Planning Hearing Officer was able to make all four required findings in favor of the application and was able to justify approval of the case based on the criteria required for alcohol-related cases in Sub-Section 30.42.030(F), Glendale Municipal Code. Restaurant uses exist and have existed in this area. The sale, service and consumption of alcoholic beverages at the fast food restaurants will not require any new city services, is not anticipated to harm public safety and welfare, and is not in conflict with existing or anticipated surrounding land uses. The conditions attached to the approval will control the use in a manner necessary to allow the use to properly fit into the specific location.

CONDITIONS OF APPROVAL

APPROVAL of this Conditional Use Permit shall be subject to the following conditions:
