**RE: 3327 HONOLULU AVENUE
ADMINISTRATIVE EXCEPTION CASE NO. PAE 1519626**

Dear Applicant:

Pursuant to the provisions of the Glendale Municipal Code, Title 30, Chapter 30.44, the Community Development Department has processed your application for an Administrative Exception to allow the construction of a 322 square foot addition that continues along an existing building line set back 5-feet from the interior property line where 6-feet is required in the "R-3050" – Moderate Density Residential Zone, located at **3327 Honolulu Avenue**, described as Lot 110, Tract No 5547 in the City of Glendale, County of Los Angeles.

ENVIRONMENTAL DETERMINATION: Exempt per CEQA Guidelines, Section 15301, Class 1 "Existing Facility".

REQUIRED/MANDATED FINDINGS

After considering the evidence presented with respect to this application, the plans submitted therewith, the Community Development Department has **GRANTED WITH CONDITIONS**, your application based on the following findings:

A. The granting of the exception will result in design improvements, or there are space restrictions on the site that preclude full compliance with the Code requirements without hardship.

The existing single-family house was constructed in 1948. The lot is approximately 7,250 square feet, rectangular in shape and fronts Honolulu Avenue. The lot is developed with a 930 square foot 1-story single-family house and a 400 square foot 2-car garage. There are space restrictions on the site that preclude full compliance with the Code requirement of a 6-foot interior setback including a mature oak tree and the location of the existing 2-car garage. The owner's request to construct a new 322 square foot addition to include a bedroom, bathroom, closet and hallway leading to the rear yard is reasonable given the site constraints. The proposed location of the addition at the rear of the house aligned with the existing building wall is in keeping with the original location and floor plan of the residence. To place the addition in a different location may compromise the existing oak tree and impact access to the existing 2-car garage by reducing the minimum Code required 25-foot turning radius.

B. The granting of the exception will not be materially detrimental to the public welfare or injurious to the property or improvements in such zone or neighborhood in which the property is located.

The proposed addition will be located along the west side of the house in line with the existing building wall setback 5-feet from the interior property line. The 5-foot interior setback has existed for many years and has not proven to be detrimental to the public welfare or injurious to the property or improvements in the zone or neighborhood. While the property is zoned multi-family, the subject and abutting properties are developed with single-family homes. As shown on the floor and elevation plans, the addition does not introduce new windows along the west elevation in order to respect the privacy of the abutting neighbors. The architectural integrity of the existing house will be maintained and the design of the project is compatible with the existing house and the neighborhood. Lastly, the addition will continue to provide adequate open space, light and ventilation for the subject residence as well as adjacent residences.

C. The granting of the exception will not be contrary to the objectives of the applicable regulations.

The proposed addition complies with the remaining "R-3050" Zoning Code standards. The purpose of the administrative exception procedure is to provide a simplified means for considering applications for minor deviations from the code standards, such as the proposed construction of a 322 square foot addition in line with the existing 5-foot interior setback. The addition will allow reasonable development of the site and therefore, granting the exemption will not be contrary to the objectives of the applicable regulations.
