REQUIRED/MANDATED FINDINGS

After thorough consideration of the statements contained in the application, the plans submitted therewith, the report by the Community Development Department staff thereon, and the statements made at the public hearing with respect to this application, the Planning Hearing Officer has **GRANTED WITH CONDITIONS** your application based on the following:

A. The proposed use will be consistent with the various elements and objectives of the general plan.

The proposed use will be consistent with the various elements and objectives of the General Plan for the area. The applicant is seeking approval of a conditional use permit to allow the continued operation of a massage establishment. The Land Use Element of the Glendale General Plan designates the subject site as Community Services. Personal service land uses, such as massage establishments, generally offer a complementary element to surrounding uses. Massage services is a permitted use in the CH – Commercial Hillside zone, subject to the approval of a Conditional Use Permit. The subject site is in a commercial area along Foothill Boulevard (identified as a Major Arterial in the Circulation Element) that is suitable for

the approval of a Conditional Use Permit. The subject site is in a commercial area along Foothill Boulevard (identified as a Major Arterial in the Circulation Element) that is suitable for this type of use. Continued operation of the massage establishment shall be required to comply with the City's Noise Ordinance (Chapter 8.36 Noise Control), and, as such, will be consistent with the Noise Element. No other elements of the General Plan, including the Open Space and Recreation and Housing Element will be impacted as a result of the massage establishment. Therefore, the proposed use is in keeping with the various elements and objectives of the General Plan.

B. The use and its associated structures and facilities will not be detrimental to the public health or safety, the general welfare, or the environment.

The use and its associated structures and facilities will not be detrimental to the public health or safety, the general welfare, or the environment. The facility is located on the south side of Foothill Boulevard, between New York Avenue and Dunsmore Avenue. The immediate vicinity of the subject site along Foothill Boulevard is developed with a variety of commercial uses, including retail, office, and personal services. A low density residential area lies to the south along Mary Ann Street. Approval of the conditional use permit will not adversely impact nearby uses, nor impede the development of surrounding properties since these properties are already developed. No changes are proposed to the existing building or site plan, including the parking facility. The commercial building is oriented towards Foothill Boulevard, and no access is available at the rear and no windows face the residential area directly south on Mary Ann Street.

The use meets the intent of the Zoning Ordinance of providing a personal service in the commercial neighborhood and will be beneficial for the public. There are no known churches, private schools or colleges, day care facilities, libraries or hospitals in close proximity to the massage establishment; Clark Magnet High School (4747 New York Avenue), Abraham Lincoln Elementary School (4310 New York Avenue), New York Park (4525 New York Avenue) and Dunsmore Park (4700 Dunsmore Avenue) are located less than a quarter mile from the subject site. Neither the Glendale Police Department nor Neighborhood Services Division cited major concerns related to the proposed conditional use permit.

The use must comply with all of the provisions set forth in Chapter 5.64 of the Glendale Municipal Code (Massage Establishments); conditions will be added to the approval of the project to ensure that the massage establishment will continue to operate in a responsible manner. Neither the Glendale Police Department nor Neighborhood Services Division cited major concerns related to the proposed conditional use permit. Section 30.64.020 of the Glendale Municipal Code provides for continuing jurisdiction over the use so that any adverse effects will not be allowed.

C. The use and facilities will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property.

The use and facilities will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property. No changes are proposed to the existing building as part of the CUP application. There are various types of commercial uses in the surrounding area. Approval of the conditional use permit will not adversely impact nearby uses on this commercial street nor impede the development of surrounding properties since these

properties are already developed. The massage use is not anticipated to draw major traffic or create conflicts with the adjacent uses and no substantial evidence was submitted to indicate that the facility would adversely impact existing facilities. Additional conditions and a shorter expiration term will help ensure that no illegal activities are conducted at the site.

D. Adequate public and private facilities, such as utilities, parking spaces and traffic circulation measures are provided for the use.

Adequate public and private facilities such as utilities, landscaping and traffic circulation measures are provided for the site and the use. The use has been in operation at its current location since 2011. A total of 27 parking spaces are provided in the surface parking facility on the subject property to service the subject use and other tenants. This application does not include any added floor area to the existing building or subject tenant space, so no increase in the parking demand is anticipated. The existing utilities, landscaping, parking spaces, and traffic circulation measures are adequate as they are already in place.
