**RE: 1100 SOUTH CENTRAL AVENUE, UNIT "D"**  
**ADMINISTRATIVE USE PERMIT CASE NO. PAUP 1703163**  
(Old Village Restaurant)

Dear Ms. Yerukhimov:

Pursuant to the provisions of the Glendale Municipal Code, Title 30, Chapter 30.49, the Community Development Department has processed your application for an Administrative Use Permit to allow the continued on-site sales, service, and consumption of beer and wine (Type 41) at an existing full-service restaurant in the "C3" – Commercial Service Zone, located at **1100 South Central Avenue – Unit "D"**, described as Lots 1 and 2 of Tract No. 1092, in the City of Glendale, County of Los Angeles.

CODE REQUIRES

(1) The on-site sales, service, and consumption of beer and wine requires an Administrative Use Permit in the C3 – Commercial Services Zone.

APPLICANT'S PROPOSAL

(1) To allow the sale of beer and wine (Type 41) for on-site sales, service, and consumption of beer and wine (Type 41) at an existing full-service restaurant.

ENVIRONMENTAL DETERMINATION

The project is exempt from CEQA review as Class 1 "Existing Facilities" exemption pursuant to State CEQA Guidelines Section 15301 (e), because the discretionary permit request is to continue -alcohol sales to an existing full-service restaurant.

After considering the evidence presented with respect to this application, the Director of Community Development has **APPROVED WITH CONDITIONS** your request based on the following findings:

**REQUIRED/MANDATED FINDINGS**

After thorough consideration of the statements contained in the application, the plans submitted therewith, the above analysis by Community Development Department staff, and any comments received from the public with respect to this application, this Administrative Use Permit application is approved based on the following:

**A. That the proposed use will be consistent with the various elements and objectives of the general plan.**

The subject site is located in the C3 (Commercial Service) Zone and the General Plan Land Use Element designation is Commercial Community Services. Goods and services that are offered in this zone generally attract clientele from the adjoining residential neighborhoods. The sales, service, and consumption of beer and wine within an existing restaurant at this location is appropriate in an area of the city zoned for commercial uses and will continue to provide an option for the dining public to enjoy beer and wine with their meals.

The on-site sales, service, and consumption of beer and wine at the restaurant will be consistent with the elements and objectives of the General Plan. The land use designation of the site is Commercial Community Services where retail services along a major arterial, such as South Central Avenue are desired. The project site is already developed and the applicant's request is to allow on-site sales, services, and consumption of beer and wine at the existing full-service restaurant. The existing restaurant is surrounded by other complementary businesses, including personal service, retail, and restaurant uses. Residential neighborhoods adjoin the project site at the rear but are not affected by the use. Therefore, other elements of the General Plan, including Open Space, Recreation, Housing, and Noise Elements, will not be impacted as a result of the applicant's request. This application does not include any added floor area or modifications to the existing building; therefore, there will be no increase in required parking for the use. Adequate utilities, landscaping, and traffic circulation measures are already provided.

The Circulation Element identifies South Central Avenue as a major arterial. The restaurant has been operating since 2011 and has proven to adequately handle the existing traffic circulation around the site. The subject property has a residential use along with a commercial use abutting the south portion of the lot. There are commercial uses (retail and personal service) to the north and west, and a multi-family building to the east. The applicant's request to serve beer and wine with meals is not anticipated to create any negative traffic-related impacts on South Central Avenue and other businesses over and above the existing conditions.

**B. That the use and its associated structures and facilities will not be detrimental to the public health or safety, the general welfare, or the environment.**

The continued on-site sales, service, and consumption of beer and wine at the existing full service restaurant will not be detrimental to the health, safety, and public welfare of the neighborhood in general. According to the Glendale Police Department, the subject property is located in Census Tract 3024.01 where the suggested limit for on-sale alcohol establishments is five. Currently, there are nine on-sale establishments located in this tract and "Old Village Restaurant" is one of the existing nine. Restaurant uses frequently serve beer and wine as part of their food service. This ancillary service is not typically associated with public drunkenness or other alcohol-related crimes. Based on Part 1 crime statistics for this Census Tract,

there were 550 crimes in 2016, 183.5% above the citywide average of 194. Within the last calendar year, there were two calls for police service at the existing restaurant; however, none were related to the sales, service, or consumption of alcoholic beverages at the existing full-service restaurant.

**C. That the use and facilities will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property.**

The continued on-site sales, service, and consumption of beer and wine at the existing full-service restaurant will not be detrimental to the community or adversely conflict with the community's normal development. Since 2011, "Old Village Restaurant" has operated without any major incidents. Their request to allow the on-site sales, service, and consumption of beer and wine with meals is not anticipated to adversely conflict with surrounding properties as it will be ancillary to the primary use, a restaurant. The subject property is abutting a residential use at the rear and is located near other commercial uses. The consumption of beer and wine with food at the existing full-service restaurant will not conflict with adjacent or nearby land uses.

There is one public facility within the immediate area of the subject site. Theodore Roosevelt Middle School is located 0.2 miles to the east of the subject site. While this public school is within close proximity, the applicant's request will not impede the operation of or conflict with such uses since it is not directly adjacent to the restaurant.

**D. That adequate public and private facilities such as utilities, landscaping, parking spaces and traffic circulation measures are or will be provided for the proposed use.**

The applicant's request to allow the service of beer and wine at the existing full-service restaurant will not result in inadequate public or private facilities. The project site is already developed and associated facilities are provided but non-conforming. The existing full-service restaurant, "Old Village Restaurant", has been operating at this location since 2011. The property is legal nonconforming in terms of parking and landscaping. The existing on-site parking has not resulted in conflicts with nearby businesses or residential development. South Central Avenue, as identified in the Circulation Element, is a fully developed major arterial and can adequately handle the existing traffic circulation adjacent to the site.

**REQUIRED ADDITIONAL FINDINGS OF FACT FOR AN ADMINISTRATIVE USE PERMIT (AUP) FOR ALCOHOL SALES (BEER AND WINE), SERVICE AND CONSUMPTION**

That all the criteria set forth in Section 30.49.030 (E) to be considered in making the findings in subsection a. through d. above have all been met and thoroughly considered:

- 1) That where an existing or proposed on-site use is located in a census tract with more than the recommended maximum concentration of on-site uses or

that where an existing or proposed off-site use is located in a census tract with more than the recommended maximum concentration of off-site uses, both as recommended by the California Department of Alcoholic Beverage Control, such use does not or will not tend to intensify or otherwise contribute to the adverse impacts on the surrounding area caused by such over concentration based on the comments submitted by the City of Glendale Police Department. The sale of beer and wine incidental to food service at the existing restaurant site does not, or will not, tend to encourage or intensify crime within this reporting district as noted in Finding B above.

- 2) That where the existing or proposed use is located in a crime reporting district with a crime rate which exceeds 20 percent of the city average for Part 1 crimes, as reported by the Glendale Police Department, such use does not or will not tend to encourage or intensify crime within the district because conditions have been included in the approval of this application to ensure that any potential negative impacts will be appropriately mitigated. As noted in Finding B above, the crime rate in Census Tract 3024.01 is at 183.5% above the city average for Part 1 crimes. In addition, no evidence has been presented that would indicate that the continued on-site sales, service, and consumption of beer and wine at the subject site would encourage or intensify crime within the district.
- 3) That the existing or proposed use does not or will not adversely impact any other uses within the surrounding area (churches, public or private schools or colleges, day care facilities, public parks, libraries, hospitals, or residential uses). As noted in Finding C above, there is one public facility within the immediate area of the project site. While these facilities and uses are within close proximity, the applicant's request will not impede the operation of such uses since it is not directly adjacent to the restaurant.
- 4) That adequate parking and loading facilities are or will be provided for the existing or proposed use or other reasonable alternatives satisfy the transportation and parking needs of the existing or proposed use. As noted in Findings C and D above, the applicant's request is not anticipated to increase the need for public or private facilities. The ancillary service of beer and wine at the existing full-service restaurant, "Old Village Restaurant" is not anticipated to intensify traffic circulation or parking demand. The site is fully developed and adequate parking and loading facilities are currently provided.
- 5) That, notwithstanding consideration of the criteria in subsections 1 through 4 above, alcoholic beverage sales, service, and on-site consumption does serve a public convenience for the area. The applicant's request to allow the on-site sales, service, and consumption of beer and wine at an existing full service restaurant does serve a public convenience because it serves local residents, businesses, and the surrounding community. Conditions placed on the approval of the project will ensure that it will not adversely impact nearby businesses and residential uses.
