The cornucopia, also called the horn of plenty, is a symbol of abundance and nourishment, commonly a large horn-shaped container overflowing with produce, flowers and nuts. It is typically associated with Autumn and harvest.

Well, we have an abundance of newly planted trees (and this month we want to plant some more) up at Deukmejian Wilderness Park. And you can provide the nourishment by helping us water and remove invasive plants from the park.

We have tasks for all ages and abilities. This is a great event for families, individuals, church groups, clubs, and students needing Community Service hours.
