

ADVENTIST HEALTH GLENDALE

NAVIGATING HOMELESSNESS PREVENTION + PROMOTING STABILITY

Connecting homeless patients
with supportive services and housing

**CONTACT SCOTT ROBERTSON

Our Navigator Case Manager works with:

- homeless patients requiring complex care
- the newly homeless
- those at risk for homelessness

Through our navigation services, these patients are connected with services in the community--and stable housing.

This program is funded by the State of California for the Homeless Emergency Aid Program (HEAP).
