**MESSAGE FROM  
SCOTT OCHOA**

*Glendale City Manager*

The South Glendale Community Plan is coming to a community meeting near you!

With the start of October you will notice an amped-up outreach effort designed to get folks' opinions about the Community Plan. What is it and why is the Community Plan important?

The Community Plan is like a land use "road map" - it will show you where South Glendale (basically, everything south of the 134 Freeway) has been, where it is today, and what might be in the future. By inventorying the litany of previous planning efforts in this area and the historical development patterns, and combining this knowledge with an assessment of neighbors' concerns as well as the opportunities they see, we believe that we will be able to best chart out a future strategy that both protects the community and addresses stated needs. Based on

**Get Walking!**

The month of October is all about getting out there and walking; that's why we call it Walktober! Here's what we have in store for the month:

**1. Celebrate International Walk to School Day!**

October 5th is International Walk to School Day! Glendale elementary and middle schools will be joining schools from around the world to celebrate. Millions of kids worldwide will be walking to school and approximately 10,000 students from Glendale alone will walk to school along with parents, teachers and community leaders to demonstrate the benefits of safely walking to and from school. Read [more](#).

**2. Driving Tips Around Schools**

With school year in full swing, sometimes parents and caregivers who drive children to schools may need a reminder of how they can play an important role in enhancing safety around school neighborhoods by following safe driving practices. [Read more](#).

**3. Join us for a Halloween Spooktacle**

The City of Glendale invites you to give us your feedback on issues you would like to see addressed in the South Glendale Community Plan. Join the Urban Design & Mobility team for this family event. Learn more [here](#).

**4. Help Make Glendale More Walker Friendly, Participate in a Walkabout**

**October 29 - Cerritos Elementary School Auditorium**  
**November 5 - Incarnation Community Center**

**5. Try our Walktober Soundtrack**

The next time you're out walking in Glendale, take our [Walktober Soundtrack](#) with you to keep a spring in your step.

outreach efforts up to now, we know that parking, traffic, more and better shopping amenities, overcrowding, lack of open space, and the lack of home ownership opportunities are major concerns for the community. Conversely, south Glendale residents are quite cognizant of the significant benefits of the area - connectivity to transit and the region, access to employment centers, as well as an eclectic mix of unique neighborhoods.

This ongoing outreach effort will become more formalized with the release of an Environmental Impact Report (EIR) that will be circulated shortly after the New Year. Under State law, an EIR is required even though the Community Plan is a planning tool and not a "brick-and-mortar" project like the Americana at Brand or Galleria. That said, this Community Plan may have an impact on you as we ask residents and stakeholders how we can best *Maintain, Enhance, Preserve* or *Transform* their neighborhoods. Utilizing land use tools like zoning, mobility planning, adopting new standards for the implementation of transfer of development rights (which can help preserve historic structures) and/or small-lot subdivisions (to increase 1st homebuyer opportunities), we will be able to fine tune specific aspects of south Glendale. I believe we have a unique opportunity to capitalize on Glendale's attractiveness and community pride to marginally enhance specific transit and commercial corridors, facilitating a series of "neighborhood villages" and other amenities.

All this said, please don't let the formality of an EIR discourage you from sharing your thoughts. Indeed, to help make your participation be as convenient as possible, please be on the lookout for the Community Development Outreach Team at the ONE Glendale Youth Sports Football Championship, Cerritos Park Halloween Spook-tacular, and other neighborhood outreach meetings near you.

Lend your voice to the future of south Glendale!!!

## CSW and YWCA: Candlelight Vigil

The City of Glendale's Commission on the Status of the Women and the YWCA of Glendale would like to invite you to their Annual Candlelight Vigil on **Thursday, October 6, 2016 at 6:00 pm** at the YWCA of Glendale, located at 735 E. Lexington Drive, Glendale, CA 91206.

There will be light snacks, speakers, a peace vigil for hope and safety, and other community organizations there to promote healthy and safe communities and homes. Speakers at the Vigil will include a former Mrs. California, who is a survivor of domestic violence, as well as Glendale Chief of Police Rob Castro.

This year, the event will have a theme that focuses on community activism and eliminating the bystander effect: **if you see violence happening, you can help!** The event will also feature a Clothesline Project to spread awareness of violence against women. Survivors touched by violence express their emotions by painting messages on t-shirts. As testimony to the problem, the t-shirts are prominently displayed across a clothesline, for supporters to view.

## SR 134/Glendale Avenue Intersection & Monterey Improvements Project

After a three week hiatus due to the start of the school year, the Public Works Department resumed construction earlier this month for the [SR-134/Glendale Avenue Interchange Modification Project](#). The project will enhance traffic flow on Glendale Avenue, a major road that connects core business destinations in the City and provides access to freeway on and off ramps. This project will also rehabilitate existing street pavement that has deteriorated to improve its service life and the ride of the roadway. A bioswale (a landscape element that captures storm water runoff water and uses the plants and soil to filter the pollutants) will also be installed at the northwest corner of Coronado Drive and Monterey Road.

## Pacific Avenue & Burchett Street Wastewater Capacity and Street Improvements Project

Last month, the Public Works Department substantially completed the [Pacific Avenue and Burchett Street Wastewater Capacity and Street Improvements Project](#).

The project spanning from Glenoaks Boulevard to Colorado Avenue rehabilitated existing street pavement using asphalt concrete mixed with recycled tire rubber material. By doing so, the revived pavement will provide a smoother and quieter ride while reducing the amount of scrap rubber tires buried in the landfills. Sewer mains were also rehabilitated as a part of the City's effort to maintain the sewer system.

In addition, some pipes were replaced with larger sizes to increase capacity and prevent potential sewer overflows. Several traffic signals were also modified and improved along the way to meet current standards, which will improve pedestrian safety while crossing the streets. For current construction activities, [follow MyGlendalePW on Twitter](#).
