

New Organics Recycling Program

(Yard Trimmings and Food Waste)

Recycling Requirements for Glendale Businesses and Multi-Family Properties with 5 or More Units

Organics Recycling

State law (SB 1383) requires all businesses and multi-family properties with 5 or more units to place organic materials in a separate bin/cart. Organics, such as food scraps, food-soiled paper products, coffee grounds and filters, and pizza boxes no longer belong in the trash.

To find out who your hauler is, refer to the zone map on Page 2 or go to glendaleca.gov/hauler.

Collection Services

As of December 1, 2021, four private companies ("haulers") selected by the City began waste hauling services for businesses and multi-family properties with 5 or more units.

Bulky Item Collection:

Businesses and multi-family properties with 5 or more units can receive up to 4 bulky item pickups, up to 4 times per calendar year, for free. Additional pickups may be scheduled for a fee. **Property managers must contact their hauler directly to schedule a bulky item pickup.**

YES

New Waste Hauling Services For: Businesses and Multi-Family Properties with 5+ Units

Your new hauler was selected due to their operational history and specialized capabilities to effectively process organic waste.

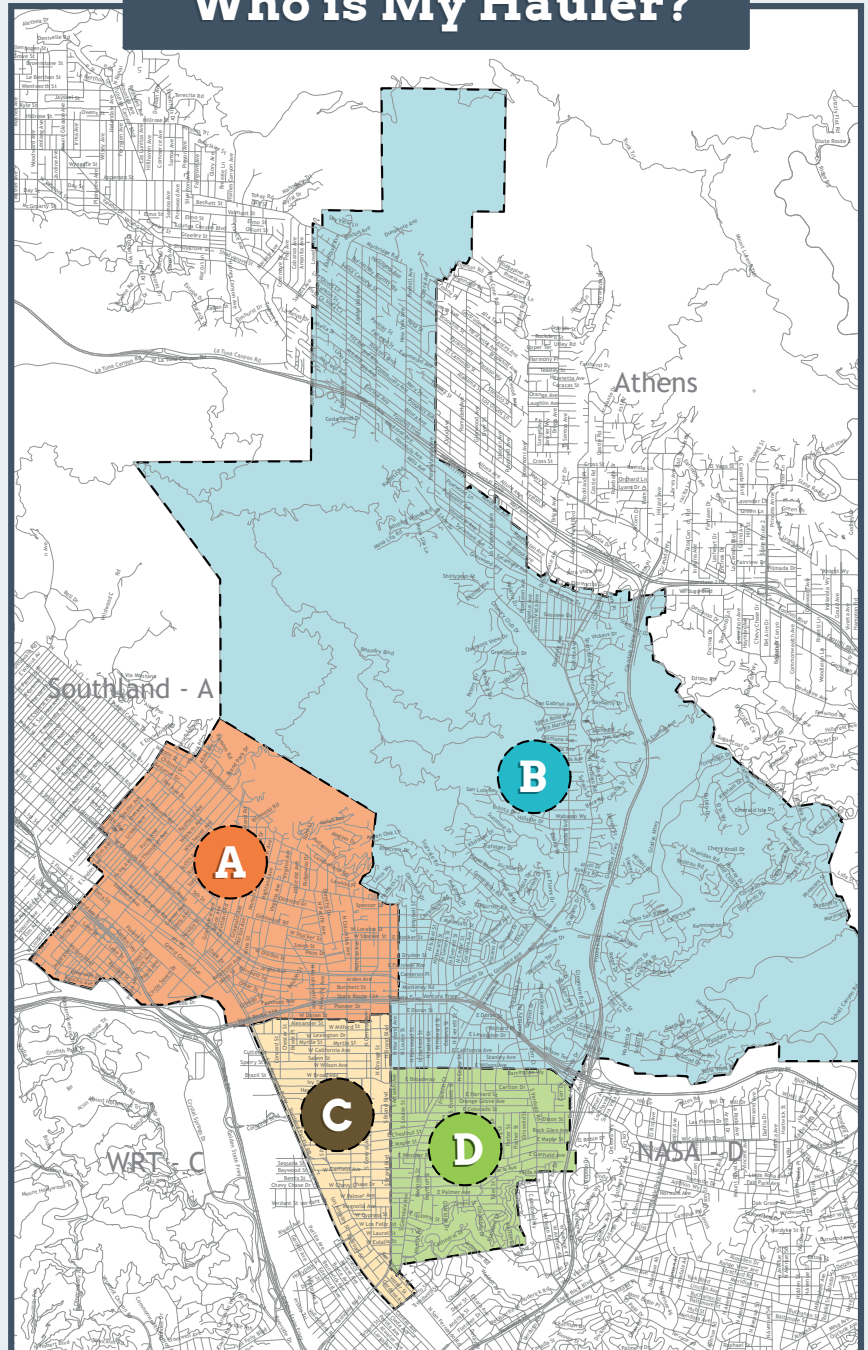

All haulers have notified property and business owners about the details of the coming changes, and will continue to provide crucial information throughout the transition regarding collection guidelines, billing, and days of service.

For more information or questions about your service, contact your haulers directly using the contact information below.
