Question/Comment No. 1 – (Catherine Jurca)

Would you please let me know about which streets will have work done on their sidewalks? I am also interested to know if any new sidewalks are proposed for the subject area.

Response to Question/Comment No. 1:

As part of this project, there will be no new sidewalk installed on the streets where currently we have no sidewalk.

We will only remove and replace existing broken and uplifted sidewalk panels on the streets that currently have existing sidewalk.
