<p><i>Description: Crescenta Valley Water District (CVWD) owns and operates a sewer transmission main that transports wastewater from the La Crescenta Area through the City of Glendale to the Los Angeles-Glendale Water Reclamation Plant (LAGWRP). CVWD will be performing preventative maintenance by cleaning the sewer transmission line. This will improve the overall performance of the sewer and significantly reduce the chance for future sewer related problems, such as overflows, etc. The work will only require the use of a CCTV enable truck to inspect and clean the line via the Transmission Main manholes. Excavation is not required, however we will be encroaching the public right ways as the truck moves along the transmission main to access manholes.</i></p>

	<i>Description: Crescenta Valley Water District (CVWD) owns and operates a sewer transmission main that transports wastewater from the La Crescenta Area through the City of Glendale to the Los Angeles-Glendale Water Reclamation Plant (LAGWRP). CVWD will be performing preventative maintenance by cleaning the sewer transmission line. This will improve the overall performance of the sewer and significantly reduce the chance for future sewer related problems, such as overflows, etc. The work will only require the use of a CCTV enable truck to inspect and clean the line via the Transmission Main manholes. Excavation is not required, however we will be encroaching the public right ways as the truck moves along the transmission main to access manholes.</i>
