

STATISTICAL SECTION (UNAUDITED)

The statistical section provides mostly trend data and nonfinancial information useful in assessing the City's financial condition. Because of the special character of the data presented in the statistical section (i.e., data of prior years, nonfinancial data), the section does not fall within the scope of the independent audit.

- Financial Trends – These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.
- Revenue Capacity – These schedules contain information to help the reader assess the City's two most significant local revenue sources, the electric revenue and the property tax.
- Debt Capacity – These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.
- Demographic and Economic Information – These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.
- Operation Information – These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Notes:

- (1) In FY2019, reduction in retail energy sales revenues was due to weather, conservation and solar installations. Reduction of retail revenues were partially offset by increase in sales to other utilities due to higher volume.
- (2) In FY2021, reduction in retail energy sales volumes was due to weather, conservation, solar installations and COVID-19 pandemic. It is partially offset by increase in sales to other utilities volumes. The Covid closures drove commercial and industrial usage-sales down and consequently increased the residential category.
- (3) In FY2021, increase in total energy sales was attributable to increased activities in sales to other utilities and increased demand in residential usage as a result of COVID-19 lockdown.
- (4) In FY2022, increase in total energy sales was attributable to increase in volumes and rates. Revenue from sales to other utilities increased from the prior year due to higher market prices.
- (5) In FY2023, increase in total residential energy sales was attributable to increase in volumes and rates.
- (6) In FY2023, revenue from sales to other utilities increased from the prior year due to new natural gas Asset Management Agreement (AMA) and increased AMA activities.

Notes:

- (1) Effective FY2016, wholesale and sales to other utilities have been combined into one account.
- (2) Reductions in the purchases and sales of MWHs correlates to the decrease in wholesale revenue and sales to other utility revenue and fluctuations in wholesale sales volume and revenue were due to changing market demand and price volatility.
- (3) In FY2018, there was an increase in customers due to recently completed residential developments. Even though megawatt-hour sales decreased, due to weather, conservation and solar installations, revenue has increased due to a 2% rate increase effective July 1, 2017.

- These are the average rates for the indicated customer classes, including energy cost adjustment charge.
- On August 13, 2013, the City Council approved an 8% system average rate increase effective September 13, 2013. The City Council also approved electric rates to become effective July 1 of each of the 4 successive years in the amounts of 7%, 5%, 2%, and 2%. The rate plan puts the Electric Utility on the path to restored financial health by generating positive annual net income by fiscal year ending June 30, 2016, supporting a bond issue of \$60 million.
- On June 12, 2018, the City of Glendale adopted a five-year rate plan (covering FY2019 through FY2023) with annual base rate revenue adjustments of 0%, 0.5%, 1%, 1%, and 1%.
- In June 2020, the City Council deferred the scheduled July 1, 2020 increase by one year to July 1, 2021, and to defer the subsequent two annual rate increases by one year. In FY2021, since the base rate is deferred, the increase is related to adjustment rates.

In 1978, the voters of the State of California passed Proposition 13 which limited taxes to a total maximum rate of 1%, based upon the assessed value of the property being taxed. Each year, the assessed value of property may be increased by an "inflation factor" (limited to a maximum of 2%). With few exceptions, property is only reassessed as a result of new construction activity or at the time it is sold to a new owner. At that point, the property is reassessed based upon the added value of the construction or at the purchase price (fair value) or economic value of the property sold. The assessed valuation data shown above represents the only data currently available with respect to the actual fair value of taxable property and is subject to the limitations described above.

Notes:

- (1) "Assessed" values are reflected.
- (2) Both the Homeowners' Exemption and Exempt Use Code categories are reflected.
- (3) Total Direct Tax Rate is the weighted average of all individual direct rates applied by the government preparing the statistical section information.
- (4) Total Direct Tax Rate for FY2019 revised.

- In 1978, California voters passed Proposition 13 which set the property tax rate at a 1% fixed amount. This 1% is shared by all taxing agencies for which the subject property resides within. In addition to the 1% fixed amount, property owners are charged taxes as a percentage of assessed property values for the payment of any voter approved bonds.
- Overlapping rates are those of local and county governments that apply to property owners within the City. Not all overlapping rates apply to all city property owners.
- City's Share of 1% Levy is based on the City's share of the general fund tax rate area with the largest net taxable value within the city. ERAF general fund tax shifts may not be included in tax ratio figures.

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. The percentage of overlapping debt applicable is estimated by using taxable assessed values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the city's boundaries and dividing it by each unit's total taxable assessed value.

Notes:

(1) Excludes tax and revenue anticipation notes, enterprise revenue, mortgage revenue and tax allocation bonds and non-bonded capital lease obligation.

Notes:

- (1) As a result of ABx1 26, the Net Assessed Value calculation does not include the assessed valuations for the former Glendale Redevelopment Agency's project areas (Central District: \$4,316,749; San Fernando Corr. District: \$2,751,892). Accordingly, the debt associated with the Glendale Redevelopment Agency became obligations of the Successor Agency, which is a separate legal entity. As such, this debt will no longer be included in the Legal Debt Margin calculation.
- (2) Under City Charter, the total bonded debt of the city shall at no time exceed a total of 15 percent of the assessed valuation of all property taxable for city purposes.

Wastewater:					
Average daily sewage treatment (millions of gallons)	13	13	13	13	13

Notes:

- (1) The City generally focuses on street resurfacing rather than street reconstructing, due to the time consuming and cost prohibitive nature of reconstructing, since it involves building from the ground up. The City has only resorted to reconstructing on rare occasions over the past decade, which showcases the durable quality of the streets of Glendale. The amount of street resurfacing is also contingent upon various factors, including level of staffing, weather, and other citywide street improvement projects, such as paving, curb, and gutter maintenance.
- (2) The "square feet of potholes repaired" is contingent upon various factors, including level of staffing, weather, and other citywide street improvement projects, such as paving, curb, and gutter maintenance.
- (3) In FY2019, the reduction in inert waste recycling by Glendale Water and Power can be attributed to less severe water main breaks. Even though the City observed more water main breaks this year, the size, scope and magnitude of failures has decreased.
- (4) In FY2020, in response to COVID, there was a decrease in parking and traffic violations. The City Council directed staff to temporarily modify the parking policy in an effort to reduce the financial burden on residents and local businesses. At the same time, the safer at home order resulted in fewer traffic violations.
- (5) In FY2020, the Fire Department has updated its counting methodology of fires extinguished with a newly defined set of fire codes, applicable to prior years as well.
- (6) In FY2020, 17,635 tons of inert debris were collected from Public Works Engineering projects, and 7,705 tons of this debris were diverted and not dumped in a Class 3 landfill.
- (7) In FY2020, Glendale Water and Power picked up large loads of dirt from Doran Street, which significantly increased inert waste recycling.
- (8) In FY2020, less street resurfacing occurred, due to the COVID-19 pandemic, which delayed project advertising, awards and contractors' work.
- (9) In FY2021, there was a decrease in parking and traffic violations as a response to COVID. The City Council directive to staff, to temporarily modify the parking policy in an effort to reduce the financial burden on residents and local businesses, was still in place from the previous year.
- (10) In FY2021, increased size and scope of GWP field activities have resulted in more inert waste.
- (11) In FY2022, increase in parking violations is due to resuming all normal parking violation regulations. Prior years were lower due to relaxed parking regulations due to the COVID 19 pandemic.
- (12) In December 2021, solid waste collection services for commercial establishments and multi-family residential establishments of 5-units greater changed from the City to Franchising. In FY2022, the new service contributed to the reduction in recyclables collected by the City. Also, the recycling market has become less sustainable.
- (13) In FY2022, GWP started sending their recycling materials through the franchise hauler along with other refuse.
- (14) In FY2023, increase in physical arrests was due to increase in criminal activity.
- (15) In FY2023, increase in parking violations due to lifting of all pandemic related suspensions and parking operations resuming to normal.
- (16) In FY2023, decrease in traffic violations was due to staffing shortages.
- (17) In FY2023, decrease in refuse collected was due to Integrated Waste Management ceased to collect material from multi-family or commercial properties.
- (18) In FY2023, increase in recyclables collected due to Integrated Waste Management discontinued collection on Saturdays, thus, the tons of recyclables collected per day increased.
- (19) In FY2023, decrease in Public Works Inert Waste Recycling collected due to fewer CIP projects within the fiscal year.

Notes:

- (1) Route miles vary every year depending on the day of the week holiday service operates.
- (2) In FY2019, the method of counting community center admissions was changed to capture each single visit separately.
- (3) In FY2020, ridership has been on a general decline in the region; however, the steep decline is due to the impacts of the COVID-19 pandemic.
- (4) In FY2020, the amount of athletic field permits issued has decreased due to the COVID-19 pandemic.
- (5) In FY2020, March 13th was the last day visits were recorded, due to the COVID-19 pandemic. All community buildings and programs were closed.
- (6) In FY2020, total volumes borrowed increased dramatically, due to implementation of unlimited auto-renewals.
- (7) In FY2021 and FY2022, the mileage increased due to a service change in November 2020 with the addition of a new route and increased service on some existing routes.
- (8) In FY2021, ridership significantly declined due to the COVID pandemic.
- (9) In FY2021, zero community center admissions due to the COVID-19 pandemic.
- (10) In FY2021, decreased total volumes borrowed due to all Library locations being closed to the public from July 2020 – April 2021.
- (11) In FY2022, the amount of transit passengers has increased from the prior year. However, ridership is still down due to the COVID-19 pandemic.
- (12) In FY2022, community centers reopened after the COVID-19 closures.
- (13) In FY2023, increase in water mains break was due to colder winter causing expansion and contraction of water pipelines.
- (14) In FY2023, the amount of transit passengers has increased from the prior year. Ridership is gradually returning post COVID-19 pandemic.

Average daily sewage treatment (millions of gallons)	13	13	13 (2)	15	15

Notes:

- (1) Effective FY2014, each department contracted out to private haulers to dispose of citywide inert wastes after the official closing of the Brand Park Landfill.
- (2) Since FY2016, the reduction in average daily sewage treatment from previous years was due to water conservation efforts.
- (3) In FY2017, law enforcement was provided electronic citation books, which made the process of entering citations in the system more efficient.
- (4) In FY2018, City deployed more downtown, special, and scofflaw parking enforcements. In particular, enforcements of night time parking around Glendale Community College have generated more citations.
- (5) In FY2018, low staffing combined with reprioritizations to assist school enforcement and to address more citizen complaints have led to a decrease in citations of traffic violations.
- (6) Since FY2018, foreign markets made the recyclable processing market more strict by only accepting materials that meet strict grade and cleanliness standards. As a result, more of Glendale's recyclables have been thrown away causing a decrease in diversion.
- (7) Since FY2018, the Public Works Department is taking inert waste to the same location that processes bulky item debris. As a result, Public Works' inert material recycling is more difficult to track separately.

Total volumes borrowed	1,067,667	921,163	1,000,355	1,310,873 (4)	1,069,695

Notes:

- (1) Route miles vary every year depending on the day of the week holiday service operates.
- (2) Since March 2015, Community Services and Parks upgraded the permitting and registration system. Permits issued prior to March 2015 may contain multiple field reservations on one permit. Beginning March 2015, individual permits were issued for each field reservation, which resulted in a significant increase in the number of permits issued between FY2015 and FY2019.
- (3) In FY2015, the increase in community center admissions may be attributed to a system upgrade that required scanning of activity cards for admission. As a result, all patrons were required to obtain new scannable activity cards. The new system allowed for improved tracking of activity card sales and renewals, in addition to increasing controls over community center admissions.
- (4) Estimates were used for unavailable data from May 18, 2015 to June 30, 2015. In FY2015, reshelves, which are books that were removed from the shelf by the patron, and then found elsewhere in the library, were counted in the total volumes borrowed. In prior years, reshelves were not included in the count.
- (5) Since FY2018, decreased ridership is due to increased car ownership and usage of alternative transportation methods.
- (6) In FY2018, the total number of pass members has decreased. Although there was a decrease in the number of pass members, the overall number of visits by all pass members is only slightly less than last year.

- (2) This number does not include the small bin trucks or light duty vehicles.
- (3) In FY2020, the helicopter purchased in 1998 was retired from operation and used only for parts, leaving two helicopters shared between City of Burbank and City of Glendale for the operation of the Joint Law Enforcement Air Support Unit. In August 2017, the oldest helicopter not in service was sold. Effective FY2015, four helicopters were shared between the two cities. From FY2007-2014, three helicopters were shared between the two cities.
- (4) The increase is due to 21 new purchases and 8 motorcycles on reserve that were not reported in prior years.
- (5) In FY2019, the City acquired new collection trucks, this count has been revised since last year to reflect an accurate count of collection trucks. In FY2020, the City disposed of several old collection trucks.
- (6) In FY2021, the Honda ST1300's reached the end of their useful lives and were sold at auction.
- (7) In January 2022, CSP completed development of a new athletic field in Glendale; the Brand Park T-Ball Field.
- (8) In March 2022, CSP celebrated the grand opening of the Stone Barn Nature Center at Deukmejian Wilderness Park.
- (9) In FY2023, seven refuse trucks were decommissioned due to Integrated Waste Management franchising and no longer collecting material from multi-family or commercial properties.
