

GLENDALE WATER AND POWER
WATER ENGINEERING DIVISION
 APPLICATION PROCEDURE FOR FIRE FLOW REPORT

If you need assistance completing this form, call 818.548.2062 or email WaterEngineeringInfo@GlendaleCA.gov.

1. The **PAYMENT AND APPLICATION** is to be signed and returned to GWP Water Engineering. Failure to return the application will delay fire flow results for the Applicant.
2. Fire flow performances will be performed according to chronological order of applications without exceptions. **Results can be expected to take approximately 2 to 4 weeks from the date of application/payment of the prescribed fees. Water Engineering shall be contacted at (818) 548-2062 after the location is marked.**
3. In providing information, documentation and/or estimates concerning water pressure within the water system, including, but not limited to, water supply limitations, system demands and operational needs may cause variations in water pressure outside of the stated parameters. Pressure may vary due to water system demands and operational needs.

NOTE: Please read the above and sign and date below indicating that you have clearly understood the Applicant's responsibility for requested water services.
